NPR – Greenhouse Gas Emissions Predicted To Fall Nearly 8% - Largest Decrease Ever

The San Gabriel Mountains are seen under a clear sky beyond downtown Los Angeles. Air quality in the U.S. and elsewhere has been improved by reduced traffic from coronavirus restrictions and weeks of rainstorms. Photo credit: David McNew/Getty Images

TOP STORIES
COVID-19 Economic Impact Check Information
The IRS has developed this webpage to help ensure everyone who is eligible receives their economic impact payment.

It’s Air Quality Awareness Week!
Stay tuned here for more information.
The theme for this year is Better Air, Better Health! Our goal is to promote events that increase air quality awareness and encourage people to check the Air Quality Index (AQI) daily. We plan to focus on the following daily topics this year, featuring one each day on the AQAW website (which will be released on May 4, the first day of AQAW):
- Monday - Wildfires & Smoke
Tuesday - Asthma & Your Health
Wednesday - Where’s Your AQI Coming From?
Thursday - Air Quality Around the World
Friday - Shout-out of state and local events

U.S. EPA would also like to share with you a new student engagement activity that was developed this year, Why I Care about Clean Air (instructions found in link), that can easily be distributed and completed from home.

**Flexibility with GAP Awards during Coronavirus**

EPA’s Frequently Asked Questions (FAQs) on Grant Issues in Response to the Novel Coronavirus (COVID-19) Public Health Emergency is available here and addresses generally applicable policies and practices. These FAQs address a broad number of issues, including grant procedures, allowable costs, disruption of services, procurement, and extensions, among other topics. Each individual work plan and award situation may be different based on your tribe’s unique situation and tribal personnel policies. We encourage you to work closely with your project officer to address your specific questions. You can also subscribe to the EPA Grants Listserv so that you may receive updates on information as it becomes available. Generally, EPA is working to provide the maximum flexibility permitted by law to continue financial assistance support to tribes and other grant recipients. For GAP recipients, this means:

- You may continue to conduct your GAP work plan activities while teleworking. If your current work plan activities are not suitable for telework, you may work with your project officer to re-negotiate some or portions of your work plan,
- You may request an extension of your project period, and
- If in the 4th year of a stand-alone GAP award (the regulatory limit), AIEO is requesting a one-time waiver so that impacted GAP awards may be extended into a 5th year.

**Proposed Rule: Review of the National Ambient Air Quality Standards for Particulate Matter**

EPA has published this proposal in the Federal Register, and the NTAA is developing a full Policy Resource Kit. The proposal states that no changes to the NAAQS for particulate matter will be taken at this time. The deadline to comment is June 29, 2020, and two virtual public hearings will be held on May 20 and May 21.

NEW! Hopi Food Sovereignty through Farming and Coalitions
A webinar hosted by the Indigenous Foods Knowledges Network
Join us on Thursday, May 7th, 10 am AKDT/11 am PDT & AZT/12 pm MST/1 pm CDT 2 pm EDT to hear presentations by Terri Honani (Hopi and Tewa) and Dr. Michael Kotutwa Johnson (Hopi). Honani will present about the Natwani Coalition and how the non-profit organization’s initiatives help to preserve Hopi farming traditions, strengthen the local Hopi food system and develop innovative sustainable strategies to promote wellness through “itam naapyani” or “doing the work ourselves.” Dr. Johnson will be presenting about the resiliency of Hopi agriculture and how conservation programs can reinforce American Indian Identity and culture. Registration is required. Questions: Contact Mary Beth Jager-jager@arizona.edu or Noor Johnson- noor.johnson@colorado.edu.

Tribal Lands and Environment Forum (TLEF) is accepting proposals for TLEF: A Virtual Gathering
Deadline: May 8, 2020
As announced a few weeks ago, we will not be conducting an in-person Tribal Lands and Environment Forum this year due to the pandemic. However, we are offering a special TLEF: A Virtual Gathering that will take place this August! This series of events will feature live online events, on-demand prerecorded sessions, and virtual field trips, and we're also designing opportunities to join online and live group discussions with mentors, presenters and colleagues.

We are now accepting proposals from you! Please check out the TLEF website at www.nau.edu/tlef and click on the Proposal tab for more information and the online submission form. And do note, the deadline is May 8.

These are very uncertain times, when many are facing not only serious health concerns but economic, social, and psychological challenges as well. And yet we all find strength in working with one another. Those of you who have been to past TLEFs know how powerful and inspiring it is to share stories - successes and challenges! - and rekindling our relationships. So we do look forward to seeing your proposals for case studies, virtual tours of your sites and facilities, strategies you're using to protect your lands and communities. We'll be sending out additional information over the next few weeks, but in the meantime be sure to visit www.nau.edu/tlef. We wish all of you peace and good health.

Draft Guidance: Interpretation of "Begin Action Construction" Under the NSR Preconstruction Permitting Regulations
Comments due: May 11, 2020
EPA is providing an opportunity for interested stakeholders to review and comment on the draft guidance titled, Interpretation of “Begin Actual Construction” Under the New Source Review Preconstruction Permitting Regulations. This guidance addresses EPA’s interpretation of “begin actual construction” under the regulations implementing the New Source Review (NSR) permitting program. In this draft guidance, EPA is adopting a revised interpretation that is more consistent with the regulatory text. Under this revised interpretation, a source owner or operator may, prior to obtaining an NSR permit, undertake physical on-site activities – including activities that may be costly, that may significantly alter the site, and/or are permanent in nature – provided that those activities do not constitute physical construction on an emissions unit. EPA will accept comment on this draft guidance through Monday, May 11, 2020. The draft guidance, and a link for submitting comments, is available at: https://www.epa.gov/nsr.

NEW! NCAI’s Forum “COVID-19: Economic Impacts and Implications for Indian Country”
May 12, 1:00-2:15 p.m. ET
To register for the forum, please click here. Part of NCAI’s ongoing COVID-19 Virtual Events series, this forum will document the data and other evidence emerging from Indian Country about the nature and gravity of the economic impacts of the COVID-19 pandemic on tribal nations, and their necessary implications for tribal governmental action and federal funding support.

E-Enterprise National Meeting: Envisioning the Future of Environmental Protection
EE2020 is the latest in a long-running series of meetings sponsored by E-Enterprise for the Environment and the National Environmental Information Exchange Network. On May 12-14, 2020, EE2020 will bring together a broad community of attendees from state, tribal, and local environmental agencies, U.S. EPA, vendors, and other stakeholders with an interest in improving the productivity and responsiveness of the environmental protection enterprise. The meeting integrates content on information technology, program modernization, and process improvement. Click here to learn more about EE2020, the benefits of attending, and ways to get involved.

Wildland Fire Community Engagement and Data Visualization Tools Webinar
Wednesday, May 20, 3-4pm ET
Register here.
This presentation will highlight two wildland fire smoke and health projects. **Smoke Sense** is a crowdsourcing, citizen science app which engages the public to broaden awareness of wildland fire smoke locally as well as health protective measures and behaviors. This presentation will share findings from the past two wildfire seasons including community engagement and data visualization tools. The Smoke Ready Communities project offers a model and framework to help communities improve their response. It supports collaboration and capacity building and also fosters preparedness and response to wildfire smoke episodes. This presentation will share a solutions-driven approach for helping reduce the public health burden of smoke intrusion at the community level. Participants will learn about how these projects can integrate a community capacity lens with resources specifically related to wildland fire smoke, air quality and health.

**NEW! EPA Tools & Resources Webinar: EPA Expands Research on COVID-19 in the Environment**
*Wednesday, May 27, 2020; 2-3pm ET*  
[Register Here](#)  
EPA scientists are building on a foundation of world-class research by applying their knowledge to reduce the risk of exposure to SARS-CoV-2, the virus that causes COVID-19. This research will help states & territories, tribes, and local governments, including public health agencies guide homeowners, business owners, and others reduce the risk of exposure. This webinar will highlight research EPA is working on with CDC, including the following:

- Environmental Cleanup and Disinfection
- Wastewater Virus Detection
- Salivary Antibody Assay Development

**Tribal Grants Education and Technical Assistance Webinar Series Second Wednesday of Every Month at 1pm ET**
[For more information, click here!](#)

**NTAA Upcoming Calls.** The toll-free number is 1-800-309-2350. If you do not need to call toll free, or would like to help conserve NTAA funding, you can call 1-805-309-2350. Both numbers use code 928-523-0526#. Contact [Andy.Bessler@nau.edu](mailto:Andy.Bessler@nau.edu) if you have any questions about any call! *Registration instructions* When you register for the GoToWebinar, please remember to include your Tribe, Region, or Organization in parenthesis after your last name. This allows you to see everyone on the call and prevents us from conducting a roll-call, ultimately saving everyone’s time.
**STAR Planning Call:** The NTAA Status of Tribal Air Report (STAR) helps tell the story of Tribal Air Programs, why additional funding for Tribes is critical to advance air quality, and is a great resource for Tribes.  

**Mobile Sources Work Group:** This monthly work group addresses all mobile source pollution issues.  

**Wood Smoke Work Group:** Join this work group every other month to address wood smoke issues in Indian Country.  

**EPA Policy Call:** Call in to hear updates from EPA on policies, actions, and tools relevant to Indian Country and Air Quality.  

**Indoor Air Quality Work Group:** Join this work group every other month to help support IAQ work throughout Indian Country.  

**The Institute for Tribal Environmental Professional’s (ITEP’s) Tribes and Climate Change Calendar** includes conferences, trainings, webinars and other events related to tribes and climate change.  

**Click here** for ITEP’s other trainings and events.  

**Click here** for ITEP’s new Tribal Environmental Management and Planning Online Courses. New courses have been added, so check it out!

### Climate Change / Energy

**NEW! May 6, 13, 20, and 27, Noon (ET) – Ask the Expert**
Every Wednesday ENERGY STAR holds a Portfolio Manager "Ask the Expert" session. It’s a live webinar that gives all users an opportunity to ask their questions directly to EPA experts in an open forum. Want to talk to a “real” person? Have a question about how Portfolio Manager calculates your score? Want to learn more about entering Green Power? Join ENERGY STAR, and they’ll answer all your questions about ENERGY STAR Portfolio Manager in this public forum.

[Register](#)

**NEW! May 6, 2 PM (ET) – Portfolio Manager 101**
Learn about EPA’s ENERGY STAR Portfolio Manager Tool. Attendees will learn how to: navigate Portfolio Manager; add a property and enter details about it; enter energy and water consumption data; and generate template performance reports to assess progress.

[Register](#)

**NEW! May 7, 2 PM (ET) - Replacing Diesel in an Alaskan Community: Cordova’s New Battery Energy Storage System**
Join this webinar with the Cordova Electric Cooperative to learn about its recently installed energy storage system. Cordova installed its 1MW/1MWh utility-scale lithium-ion system in June 2019 to allow the utility to harness more hydropower and reduce reliance on diesel fuel. In this webinar, Cordova Electric will describe
how its evaluation, analysis, and modeling led to the installation of the battery. In
addition, Cordova Electric will explain the battery's main functions on its
hydropower microgrid and detail the battery's performance during a 2-day
operation last November in which the coop was able to avoid spilling hydro
generation capacity. Lastly, the panelists will cover battery operation and project
financing.

Register

NEW! May 13, 1 PM (ET) – Portfolio Manager 201
Continue to learn about EPA’s ENERGY STAR Portfolio Manager Tool with a
deeper dive into more advanced functionalities such as: editing property data;
correcting and updating property use details; using the data quality checker; and
sharing property data.

Register

NEW! May 14, 2 PM (ET) – Using ENERGY STAR Recognition in Strategic
Energy Management Programs
Helping facilities earn recognition for energy performance can be an effective way
to demonstrate the value of Strategic Energy Management (SEM) and build
support energy management broadly. ENERGY STAR offers several different
recognition opportunities for industrial facilities through the Challenge for Industry
and the Find the Treasure Campaign that SEM programs can leverage. Join to learn
more about these and other SEM resources.

Register

NEW! May 15, 2 PM (ET) – Decarbonizing Electricity: The Critical Role of
Firm Low-Carbon Resources
Wind, solar, and batteries will be star players in a 100% carbon-free electricity
sector. But reaching zero emissions cost-effectively requires completing the low-
carbon team with one or more "firm" low-carbon resources. This webinar will
summarize research on deep decarbonization of the electricity sector and the
portfolio of solutions needed to reach this key goal at an affordable cost. At the
conclusion of a presentation by Jesse Jenkins of Princeton University, there will be
opportunity for audience questions.
Presenter: Jesse Jenkins, Assistant Professor, Department of Mechanical &
Aerospace Engineering and Andlinger Center for Energy & Environment,
Princeton University

Register

NEW! May 19, 1 PM (ET) – Portfolio Manager 301
With a good background on the basic functionality of EPA’s ENERGY STAR
Portfolio Manager Tool, learn about some advanced features including: using
spreadsheet upload templates to update property data; setting goals and targets to plan energy improvements for properties; creating custom reports; and using the Sustainable Buildings Checklist.

Register

NEW! May 20, 2 PM (ET) - Tracking GHG Emissions in Portfolio Manager
This webinar will provide a closer look at tracking and reporting your GHG emissions using the EPA’s Portfolio Manager tool. Attend this webinar if you’re interested in:

- Understanding the Portfolio Manager GHG emissions inventory
- Learning how to track emissions benefits from green power use in Portfolio Manager
- How to use Portfolio Manager’s reporting functionality to track GHG emissions for the properties in your portfolio

Register

NEW! May 21, 2 PM (ET) - Renewable Energy Options for Small Businesses and Congregations
Electricity use is often the single largest source of an organization’s emissions and air pollution footprint, not to mention being a significant expense. Making the simple choice to use renewable energy can offer environmental, economic and community benefits. On this webinar, you will learn about the various options available in the market to buy green power through retail purchase, self-generation and direct purchase from a renewable project. You will learn about how to align your desired energy and environmental outcomes to specific green power supply options. You will learn about the role of renewable energy certificates and how they can support your organization meeting its renewable energy and carbon footprint reduction goals. Speaker: James Critchfield, Program Manager, EPA Green Power Partnership

Register

NEW! May 27, 1 PM (ET) – Tribal Energy Project Technology Options
The energy landscape continues to evolve rapidly. In many areas, costs continue to drop as technology improvements and other market drivers create greater opportunity for distributed generation. This webinar will provide an overview of several common energy technology options. Hosted by the U.S. Department of Energy (DOE) Office of Indian Energy, the 2020 Tribal Energy Webinar Series will focus on how to accomplish specific tasks related to energy development on tribal lands. Presenters will provide instruction and sharing tools and resources.

Register
NEW! May 28, 2 PM (ET) - Strategies for Setting Effective Energy Performance Goals
Are you aiming to set meaningful energy performance goals for your buildings? Join this webinar to hear from three ENERGY STAR partners how to use a technical approach to estimate the energy efficiency improvement potential of a building and set effective goals. Boston Properties will share how they used a scientific method for setting performance goals for targets to make them realistic and achievable. In addition, CommonWealth Partners will talk about how they provide guidance on tracking emissions through ENERGY STAR Portfolio Manager to all their properties and established science-based emissions targets. Finally, Hudson Pacific Properties will discuss how they setting performance goals and updating targets for their buildings, and how to incorporate carbon reduction goals into a program.
Speakers:
- Ben Myers, Director, Sustainability, Boston Properties
- Jessica Loeper, Director of Sustainability, CommonWealth Partners
- James Soutter, Vice President, Engineering, Hudson Pacific Properties

Register

NEW! June 3, 2PM (ET) - Equity in Action: Heat Planning in Greater Phoenix
This 90 minute webcast will cover how The Nature Conservancy Arizona, Arizona State University, the Maricopa County Department of Public Health, and other partners developed the Heat Action Planning Guide for Neighborhoods of Greater Phoenix. This team worked directly with community members using a participatory process to identify challenges and create community driven solutions to mitigate and adapt to future heat. Specific cooling solutions include revitalizing vacant lots with trees and vegetation, and increasing shade along transit routes and at bus stops. The process was designed to develop awareness, agency, and social cohesion in underserved communities.
Speakers:
- Victoria Ludwig, U.S. EPA Heat Island Reduction Program
- Melissa Guardaro, Arizona State University
- David Crummey, Retail, Arts, Innovation & Livability Mesa

Register

NEW! Registration Is Now Open: National Tribal & Indigenous Climate Conference
August 31-September 3, 2020, St. Paul, Minnesota
The Institute for Tribal Environmental Professionals (ITEP) is honored to host the United States’ first Biennial National Tribal and Indigenous Climate Conference (NTICC) along with support from the Bureau of Indian Affairs (BIA) Tribal
Resilience Program. The NTICC is open to all US tribal nations and Indigenous Peoples from throughout the world, with an emphasis on including our Elders and Youth. The NTICC will convene experts on climate change and will include a balance of Traditional Indigenous Knowledges and Western Science. We invite people to submit proposals before May 29, 2020, discussing climate-related impacts, assessments, tools, adaptation planning, mitigation and actions in one or more of the following tracks:

- Indigenous Knowledges
- Air, Health & Well-Being
- Land
- Water
- Relocation
- Infrastructure
- Energy Systems
- Food Sovereignty
- Ecosystems and Biodiversity

South Central Climate Adaptation Science Center: Earth to Sky Workshop
Earth to Sky is a partnership between NASA, NPS, and USFWS that enables and encourages informal educators to access and use relevant NASA science, data, and educational and outreach products in their work. The partnership’s focus is on climate change science and communication. Join us for three days of training with native informal educators from across the South Central region who recognize the importance of teaching climate change. The workshop will take place July 15-17 in Sulphur, OK. Learn more here.

Save the Date: Southwest Tribal Climate Resilience Camp
Date: July 26-31, 2020
Location: Navajo Technical University – Crownpoint, NM
The Tribal Climate Resiliency Camp will support teams of Tribal Leaders, climate change coordinators, planners, and program managers to build skills, gather information, and develop Tribal policies and plans needed for Tribal Nations to address climate change impacts. Information about travel, lodging, and registration will be available soon. You may contact Althea Walker, Tribal Climate Science Liaison, at AWalker@aihec.org or (480) 258-3963 with questions.
SEEKING TRIBAL DELEGATES
We are currently recruiting 10 Southwest Tribes to participate in the 2020 Camp. Each Tribe should identify three delegates per Tribe. The delegates must participate for the entire week curriculum. Delegates may include climate change staff, tribal policy leaders, Tribal Council, natural resource and environmental managers and staff, administrators, department staff from health, public works, education, housing, and other relevant departments that should engage in climate change planning. FOR APPLICATIONS Visit this link.

Save the Date: Shifting Seasons Summit 3, October 6-8, 2020, Keshena, WI
Contingency dates: March 2021
The Shifting Seasons Summit is a gathering that focuses on climate resilience planning and implementation within Tribes and across Tribal ceded territories in the Northeast Region. This summit will also include network-building opportunities and initiatives developed outside of the Northeast by capacity building organizations, academic institutions and Tribes. Visit www.NICRN.org for more details.

ITEP’s Climate Change Adaptation Training Courses registration is online! Learn more about the courses and register here.

**Toxics/Mobile Sources**

**NEW! Tribal Consultation Period Extended for EPA’s Draft Plan for the Federal Certification of Applicators of Restricted Use Pesticides within Indian Country**

*Extended through August 3, 2020*

The U.S. Environmental Protection Agency’s Office of Chemical Safety and Pollution Prevention (OCSPP) – Office of Pesticide Programs is provide notice to federally-recognized tribes that EPA’s Tribal Consultation on the *Draft EPA Plan for the Federal Certification of Applicators of Restricted Use Pesticides within Indian Country* is extended through August 3, 2020 to accommodate a recent tribal request. The timeline for the consultation and consultation period will extend from February 10–August 3, 2020. During this period, a third consultation session will be conducted. To participate, the Office of Chemical Safety and Pollution Prevention (OCSPP) invites you and/or your designee to join us during the following consultation session:

- **Session 3:** Wednesday, July 15th from 12:00pm-2:00pm ET
  Conference Line: 866-299-3188; Code: 202-566-0603
  Adobe Connect: [https://epawebconferencing.acms.com/draftepaplan3](https://epawebconferencing.acms.com/draftepaplan3)

**Postponed: Green Transportation Summit & Expo and the West Coast Collaborative Partners Meeting has been postponed until August 24-26, 2020**

After careful consideration of the growing public health concerns associated with the coronavirus (COVID-19), the Green Transportation Summit & Expo and the US EPA West Coast Collaborative is postponing our GTSE | WCCPM event until August 24 – 26, 2020, at the Greater Tacoma Convention Center in Tacoma, WA.

The Institute for Tribal Environmental Professionals (ITEP) and the Green Transportation Summit & Expo (GTSE) have partnered to provide 25 complimentary full-conference passes to the Green Transportation Summit & Expo. The GTSE is the Pacific Northwest’s premier clean fleet and transportation event, focusing on fleets, fuels, technologies, policy & practice, with a regional focus and a national scope. We will provide you the opportunity to see, touch,
framework, and learn about new transportation technologies firsthand, such as electric, hydrogen, natural gas and propane-powered heavy-duty vehicles, off-road utility vehicles, generators, and others. Workshops on DERA, VW funding, other federal funding opportunities, and alternative fuels will be presented. Please join us at the Greater Tacoma Convention Center for the 10th annual GTSE to learn about clean transportation, how to reduce greenhouse gas emissions, pollutants, and costs in your fleet operations. To learn more about the conference, check out our website.

To receive the code for the complimentary passes, please contact ITEP’s Dara Marks Marino at Dara.Marks-Marino@nau.edu.

**Indoor Air Quality**

**NEW! Cleaning Schools to Control for Viruses and Bacteria: Maintaining Healthy Indoor Learning Environments**

*Save the Date: Thursday, May 7, 2020; 2:00-4:30pm EDT*

**Register here.**

Cleaning for health, using effective and efficient products, policies and practices, has always been the first line of defense for schools when it comes to controlling the spread of infectious disease and providing healthy, safe and productive indoor learning environments. This webinar is designed to help school district facilities and custodial staff put action plans in place to meet modern day environmental health challenges, while maintaining good indoor environmental quality, ensuring staff safety and protecting occupant health.

Be sure to subscribe to **CodeTalk**, HUD’s Office of Native American Programs newsletter, for webinars and opportunities!

**RESOURCES & FUNDING OPPORTUNITIES**

**Now Hiring!**

**NEW! EPA is Hiring a Branch Chief of State and Local Energy and Environment Program**

*Closes May 12, 2020*

Application and more information available on USAJOBS at [RTP-OAR-DE-2020-0027](https://www.usajobs.gov/), and you can learn more about us on our webpage.

**Ambient Air Quality/EPA/NTAA/Tribes**

**Indigenous Environmental Network’s COVID-19 Emergency Mutual Aid Fund**

IEN has launched a COVID-19 Emergency Mutual Aid Fund to quickly mobilize resources to our frontline communities and groups that have a demonstrated need
experiencing financial hardship due to the COVID-19 pandemic. Community-based Indigenous peoples and organizations from the U.S. and Canada are eligible to apply. Small grants up to $2,000 are being offered to assist with either of the following three situations:

1. Purchase of essential provisions: food, water, medication, diapers, cleaning supplies, pet food, etc.
2. Support with transportation for essential needs and provisions, such as medical appointments and clinic/hospital visits, medication, groceries etc. This includes deliveries, gas money, local transport and getting a ride from your relatives, so long as everyone is practicing precautionary measures to avoid transmission of the virus. In some situations, this can also support getting/leaving home from long distances to care for family members as long as all legal guidelines around travel restrictions are recognized and "Stay in Place" mandates, curfews, etc. are observed.
3. Home business slowdowns in sales and other cash flow difficulties (maybe your supplier is shut down, or a big order for an event is canceled). For this support “home business” is referring to things like quilting, regalia making, bead and quillwork, moccasin making, basket making, pottery, silversmithing, etc.

In line with the Principles of Respect and the Consciousness of Caring for our Relatives, IEN invites those in need, to apply for support. This is the link to the Application Form.

**DOI OSM Science and Technology Projects Related to Coal Mining and Reclamation - $1.5 million**

*Applications Due: May 25, 2020*

*Eligible Entities: tribal governments, state governments*

The United States Department of the Interior, Office of Surface Mining Reclamation and Enforcement (OSMRE) is requesting Applied Science proposals for projects that develop and demonstrate improved science and technologies related to the mining of coal and the reclamation of the land after mining. Funded projects will help address important OSMRE issues related to implementation of the Surface Mining Control and Reclamation Act (SMCRA). Applicants may request funding up to $200,000. The award will be by cooperative agreement (or as an Interagency Agreement if another Federal Agency is involved). Each cooperative agreement will be for a period of time consistent with the proposal but not to exceed two years from date of award. Each cooperative agreement grantee may apply for and be granted non-funded extensions of time only as necessary to complete the project. OSMRE will only grant extensions if the delays are beyond the control of the Principle Investigator (PI). Included in this document are instructions for preparing the proposal including a list of eligible issues and a description of the proposal review process. OSMRE will only accept proposals that
address the specific list of eligible issues. For more information, visit the funding opportunity [description](#).

**EPA Children's Healthy Learning Environments Grant Initiative - $315 thousand**

*Applications Due: June 1, 2020*

*Eligible Entities: state or state agencies, local governments, city or township governments, county governments, and federally recognized tribes*

The purpose of the Children’s Healthy Learning Environments Grant Initiative is to provide capacity building to address children’s environmental health in school and childcare settings. The Children’s Healthy Learning Environments Grant Initiative provides funding directly to organizations to support school- and/or childcare center-based capacity building projects that help school communities understand and address local environmental and public health issues that affect children. EPA anticipates awarding two grants of approximately $145,000 each for up to a two-year funding period. Grant applications should reflect multi-media and holistic approaches for reducing environmental exposures in schools and childcare settings through capacity building, trainings, and technical assistance. Proposals should also demonstrate a broad reach and collaborative problem-solving with appropriate partners. For more information, visit the funding opportunity [description](#).

**DOI BLM National Threatened and Endangered Species Funding Opportunity - $2 million**

*Application Due: June 01, 2020*

*Eligible Entities: City or township governments, State governments, Native American tribal governments (Federally recognized), special district governments, County governments*

This funding opportunity is to work with partner organizations at a national level to assist with the conservation of various species, to include federally-listed, candidate and Bureau sensitive species across state boundaries. Conservation includes, but is not limited to, gaining knowledge about species and their habitats, providing for protection or management of species and their habitats, augmenting species, restoring, and enhancing rare species habitat. This program is in support of creating a conservation stewardship legacy second to only Teddy Roosevelt by providing an opportunity to strengthen state and local partnerships, implement priority species and habitat monitoring, support restoration activities that enhance habitat connectivity and resiliency, and enhances opportunities for volunteer service and youth engagement on public lands. For more information, visit the funding opportunity [description](#).

**Native American Agricultural Fund (NAAF) Request for Applications Open**
Today we announce our 2020 Request for Applications (RFA), the second application cycle to date. Since NAAF was launched in 2018, our Board of Trustees and staff have taken steps to craft a strategy that can begin to realize the promise we knew was possible when NAAF was created. Agriculture across Indian Country is as diverse as our Native nations and we hope the applications for funding will reflect that diversity. Native farmers and ranchers are key to the success of Native food systems and diversification of our agriculture economies. We look forward to the next step on this journey. Even in the face of the COVID-19 crisis, we know that it is important to keep moving forward and ensure that Native farmers, ranchers, fishers and food champions are provided support. Prospective applicants are encouraged to view the RFA at NativeAmericanAgricultureFund.org/2020-RFA. The request for applications opened on Wednesday, April 1, 2020. Eligible applicants must submit a complete application no later than Monday, June 1, 2020 by 11:59 pm CT. NAAF will provide flexibility for applicants with hardships applying due to COVID-19. Please visit our website, email or call for further details.

Grants are available to eligible grant recipients in the mission areas of business assistance, agricultural education, technical support and advocacy services. We are also accepting applications across four special emphasis areas listed below:
- Traditional Foods and Food Sovereignty
- Advocacy
- Agriculture Extension
- Youth (available in a separate application process)

Prospective applicants may register for informational RFA webinars at NativeAmericanAgricultureFund.org/grants-webinar. Technical assistance relating to the application process is available by emailing grants@NativeAmericanAgricultureFund.org or calling 479-445-6226.

Two New Funding Opportunities Available Through Engagement Opportunities in NASA’s Minority University Research and Education Project for American Indian and Alaska Native STEM Engagement – NASA MAIANSE

This National Aeronautics and Space Administration (NASA) Research Announcement (NRA), entitled Engagement Opportunities in NASA STEM (EONS) – 2020, solicits proposals for competitive funding opportunities in support of the Minority University Research and Education Project (MUREP) administered by NASA’s Office of STEM Engagement. EONS 2020 is an omnibus announcement that includes a wide range of NASA science, technology, engineering, and mathematics (STEM) Engagement opportunities for basic and applied science and technology research and education. Specific opportunities will be issued periodically throughout the year as Appendices to this solicitation with
individual requirements and milestones. For more information regarding the following opportunities and scheduled information sessions, please visit the **ENGAGEMENT OPPORTUNITIES IN NASA STEM (EONS-2020)** page on the NASA Solicitation and Proposal Integrated Review and Evaluation System (**NSPIRES**) website and click on ‘List of Open Program Elements’.

**First Funding Opportunity: APPENDIX I: MUREP Space Technology Artemis Research (M-STAR) Planning Grant**

*Proposals due: June 15, 2020*

In support of **NASA’s Artemis program**, the MUREP Space Technology Artemis Research (M-STAR) activity is established, to strengthen and develop the research capacity and infrastructure of U.S. Minority Serving Institutions (MSIs) in areas of strategic importance and value to NASA’s mission and national priorities. Overall, M-STAR awards act as planning grants with the goals of promoting literacy in STEM and enhancing the capability of institutions to participate in **NASA’s Space Technology Mission Directorate (STMD)** opportunities. Awards are up to $40k for a maximum duration of four months. For general inquiries, contact: **NASAMSTAR@nasaprs.com**.

*If you are interested please attend the pre-proposal webinar Wednesday April 22, 2020.*

Pre-proposal Webinar for the EDUCATION OPPORTUNITIES IN NASA STEM 2020 MUREP Space Technology Artemis Research (M-STAR) Planning Grant Wednesday, April 22, 2020, 4:00 – 5:00 pm Eastern Time

The MUREP Space Technology Artemis Research (M-STAR) Planning Grant Pre-proposal webinar will give an in-depth overview of the opportunity. During the session, information regarding proposal preparation, guidelines and requirements will be provided. For complete information regarding this NASA opportunity, go to the **M-STAR solicitation page** in NSPIRES. You must be registered to participate in the webinar, and **pre-registration** is available now.

**Second Funding Opportunity: APPENDIX J: NASA MUREP INCLUDES Planning Grant**

*Proposals due: June 15, 2020*

In response to the **Federal STEM Education Strategic Plan**, MUREP is working with the NSF to expand the **NSF INCLUDES (Inclusion across the Nation of Communities of Learners of Underrepresented Discovers in Engineering and Science) National Network** of partners. This NRA invites planning grant proposals to assist in the formulation and convening of MSI-led coalitions in support of broadening participation in engineering. This is a novel and strategic partnership initiative, enabling MSIs to assemble and lead coalitions comprised of multiple organizations, institutions and agencies. The planning grant enables applicants to prepare for response to a full solicitation, tentatively scheduled to be released in Fall 2020. Awards are up to $50k for a maximum duration of four months. For general inquiries, contact: **NASAMUREP-INCLUDES@nasaprs.com**.
**DOI BOR Native American Affairs: Technical Assistance to Tribes for FY20 and FY21 – $1 million**

*Applications Due: October 28, 2020 for FY21*

*Eligible Entities:* federally recognized tribes or tribal organizations of the 17 Western States identified in the Reclamation Act of June 17, 1902

The objective of this opportunity is to invite federally recognized Indian tribes and tribal organizations to submit proposals for financial assistance for projects and activities that develop, manage, and protect tribal water and related resources. Through this opportunity, Reclamation provides funding for projects that increase water reliability consistent with sections 3 and 4 of the October 19, 2018, Presidential Memorandum on Promoting the Reliable Supply and Delivery of Water in the West. For more information, visit the funding opportunity [description](#).

**Climate Change/Energy**

**Black, Indigenous, and People of Color (BIPOC) Climate Leadership Program Applications are Open**

*Deadline to apply: May 8. [Link to Application](#)*

350.org is launching a BIPOC Climate Leadership Program. The purpose of the program is to train BIPOC humans with an unapologetic climate justice and racial justice lens. [Learn more about the program here.](#) This is a free online + training program! Our main point of contact is out NY Organizer, Dominique Thomas: dominique.thomas@350.org, Phone: 917-693-8246.

**DOE GFO Solar Energy Technologies Office Fiscal Year 2020 Funding Program - $125.5 million**

*Applications Due: May 21, 2020*

*Eligible Entities: unrestricted*

This funding opportunity is being issued by the U.S. Department of Energy’s (DOE) Office of Energy Efficiency and Renewable Energy (EERE) Solar Energy Technologies Office (SETO). SETO supports solar energy research and development (R&D) in three technology areas—photovoltaics (PV), concentrating solar-thermal power (CSP), and systems integration—with the goal of improving the affordability, reliability, and performance of solar technologies on the grid. This section describes the overall goals of the Solar Energy Technologies Office Fiscal Year 2020 (SETO 2020) funding program and the types of projects being solicited for funding support through this FOA.

The SETO 2020 funding program seeks to advance R&D of solar technologies that reduce the cost of solar, increase the competitiveness of
American manufacturing and businesses, and improve the reliability of the grid. These projects will advance R&D in PV, CSP, and energy management technologies, while also working to improve cyber security, expand solar to new applications like agricultural solar, integrate solar and storage, and utilize artificial intelligence to address research challenges. For more information, visit the funding opportunity description.

**DOE Announces Up To $15 Million for Tribes to Deploy Energy Technology**

*Deadline to Apply: July 1, 2020*

DOE is soliciting applications to install energy technology on tribal lands. Specifically, the Office of Indian Energy Policy and Programs is soliciting applications to:

- Install energy generating systems and energy efficiency measures for tribal buildings;
- Deploy community-scale energy generating systems or energy storage on tribal lands;
- Install integrated energy systems for autonomous operation (independent of the traditional centralized electric power grid) to power a single facility or multiple essential tribal facilities during emergency situations or for tribal community resilience; or
- Deploy energy infrastructure or integrated energy systems to electrify tribal buildings.

Applications may also be submitted on behalf of an Indian Tribe(s) by an authorized Tribal Organization, provided evidence of that authority is included as part of the application. See the FOA for all eligibility requirements. Applications are due July 1, 2020.

**DOE BIA Offshore Wind Energy Atmospheric Science and Project Development - $20 million**

*Applications Due: July 9, 2020*

*Eligible Entities: unrestricted*

The Wind Energy Technologies Office (WETO) is within the Department of Energy’s Office of Energy Efficiency and Renewable Energy (EERE). EERE advances America’s leadership in science and technology through early-stage research and development in sustainable transportation, renewable power, and energy efficiency. This FOA has Two Topic Areas:

- **Topic Area 1:** The overall goal of this Topic Area is to provide funding for a project that will improve wind resource modeling and predictions in offshore wind energy development areas. Using lessons-learned and information gained during the previous program work in complex-terrain wind resource modeling and prediction, this Topic Area will focus on improving wind resource model physics...
for foundational wind forecasts and other applications in offshore wind energy development areas.

Topic Area 2: The overall goal of this Topic Area is to provide funding for a project(s) that will enable demonstration of a novel technology and/or methodology that will advance the state-of-the-art of offshore wind energy in the United States. The proposed project must either implement an innovative technology at engineering/pilot or full-scale, and/or employ a novel methodology that has yet to be utilized commercially in the United States for offshore wind.

For more information, visit the funding opportunity description.

DOE BIA Office of Indian Energy and Economic Development: National Tribal Broadband Grant (NTBG) - $1.2 million
Applications Due: June 15, 2020
Eligible Entities: county governments, state governments, city or township governments, special district governments, Native American tribal governments (federally recognized and other than federally recognized)
The Office of Indian Energy and Economic Development (IEED), Office of the Assistant Secretary—Indian Affairs is soliciting proposals from Indian Tribes, as defined at 25 U.S.C. § 5304(e), for grant funding to hire consultants to perform feasibility studies for deployment or expansion of high-speed internet (broadband) transmitted, variously, through digital subscriber line (DSL), cable modem, fiber, wireless, satellite and broadband over power lines (BPL).

TBG grants may be used to fund an assessment of the current broadband services, if any, that are available to an applicant’s community; an engineering assessment of new or expanded broadband services; an estimate of the cost of building or expanding a broadband network; a determination of the transmission medium(s) that will be employed; identification of potential funding and/or financing for the network; and consideration of financial and practical risks associated with developing a broadband network. For more information, visit the funding opportunity description.

Toxics/Mobile Sources
EPA OAR 2020 Diesel Emissions Reduction Act (DERA) Tribal Grants - $2 million
Applications Due: July 9, 2020
Eligible Entities: Tribal governments (or intertribal consortia) and Alaska Native Villages, which have jurisdiction over transportation or air quality. EPA’s Office of Transportation and Air Quality is soliciting applications nationwide for projects that achieve significant reductions in diesel emissions in terms of tons of pollution produced by diesel engines and diesel emissions exposure, particularly from fleets located in areas designated as having poor air quality. DERA grants provide funding to eligible recipients so that they may implement programs which incentivize and accelerate the upgrading or retirement of the legacy diesel fleet. For more information, visit the funding opportunity description. Here are several helpful links as well:
